# MISENSE MACCA AUDIO VIDEO DASHBOARD VISIPLX EDITION

by MiSolutions Group

## AT A GLANCE

- Touchscreen Interface: 10.1-inch high-resolution display with intuitive touch controls for easy navigation and interaction.
- Visiplex Integration: Seamless connection with Visiplex communication systems for centralized control and notifications.
- Real-Time Alerts: Immediate visual and auditory notifications for events such as vaping detection, tampering, device offline/online status, and more.
- Customizable Notifications: Alerts and event types can be tailored to specific operational needs, with distinct sounds and icons for each event.
- Multi-Icon Display: Simultaneous display of multiple alert icons in a 2x2 grid format, with clear visual representation of active alerts.
- Event Logging: Automatic timestamped event logging, with a 30-day history for review and audit purposes.
- Dynamic Status Display: Automatic display of system status (e.g., "Online") when no alerts are active, ensuring users are always informed.
- Clear Alerts Function: One-touch button to clear active alerts, with a record of cleared events for tracking and review.
- Daily Auto-Clear: Automatic clearing of previous day's events at midnight, resetting the system for new alerts the next day.
- Remote Monitoring: Capable of receiving and displaying events from Visiplex capable connected devices
- Clear inbuilt speakers for audio alerts that only clear you the user clears the alert on screen.
